

## Santa Rosa Medical Center contracts for new emergency room physician leadership

November 09, 2010 1:38 PM

[Special to the Press Gazette](#)

Santa Rosa Medical Center has partnered with Hospital Physician Partners, a nationwide medical management company that specializes in the integration of Emergency Department management.

Hospital Physician Partners' clinical operations leadership team consists of clinicians and former hospital executives with decades of experience in Emergency Department management, and clinical practice experience. Each member of the Hospital Physician Partners clinical operations team works either clinically and/or administratively in the hospitals they serve.

In March 2010, Hospital Physician Partners assumed responsibility for providing and supervising high quality, ER trained physicians for Santa Rosa Medical Center's emergency room, which has an annual patient volume of 26,000 visits. All together Hospital Physician Partners manages operations in 134 emergency rooms nationwide.

"We will continue to strengthen our bond with our community by continually enhancing the care we deliver," said Santa Rosa Medical Center CEO Phillip Wright. "Our partnership with Hospital Physician Partners and their highly trained and qualified emergency room professionals is taking yet another step toward that goal."

Santa Rosa Medical Center is a full service 129-bed hospital facility located on Berryhill Road in Milton. Most recently Santa Rosa Medical Center was recognized by the American Heart Association and the American Stroke Association as a participating facility for its "Get With The Guidelines" program. Also part of the SRMC family is the Santa Rosa Medical Group. Santa Rosa Medical Group consists of family medicine, internal medicine, and general surgery practices as well as our urgent care and occupational health clinics.
