

# Partnering for Results with Hospitals Nationwide!

## Our Services

Hospital Physician Partners is a physician-led Medical Management company that partners with hospitals and clinical providers to deliver quality patient care, improve Emergency Medicine and inpatient services and build successful Emergency Medicine and Hospitalist practices. For more than 30 years we have transformed under-performing ED's into community assets, treating over 60 million patients along the way.

Our corporate medical leadership and on site Medical Directors actively work clinical shifts in the hospitals we serve, thus ensuring we are in touch with the realities of today's ED. Our services are clear and defined:

- Emergency Medicine Management
- Hospitalist Medicine Program Management
- Provider Recruitment

## Our Results

Hospital Physician Partners has a long track record of delivering measurable results to our clients. Examples include:

- Improving Patient Satisfaction
- Decreasing Average Length of Stay
- Reducing Cost Per Case
- Improving Time to Provider
- Reducing Left Without Being Seen
- Enhancing Communication and Collaboration

Key elements of our results management process include an exclusive monthly Performance Assessment Scoring System (PASS) utilizing web based EMR's. These reports deliver clinical performance outcomes on a case-by-case basis.

Hospital Physician Partners' extensive clinical education and training combined with our hands-on approach and departmental communication processes has led to a rate of frequency of malpractice incidents substantially below national averages.

## Our Mission & Vision

**Our mission** is to be a great partner with the hospitals, clinical providers and patients we serve.

**Our vision** is to continually strengthen the bond of partnership between hospitals, physicians and patients. By delivering measurable results that improve the quality of care and provider/hospital performance, we will become the nation's leading resource for Medical Management and provider recruitment in Emergency and Hospitalist Medicine.

## Our Partners

**What's important to YOU...is what matters to US.**

Client feedback and collaboration in the trenches are part of what drives our support and service standards:

- Our clinical corporate leadership teams work regular shifts in the hospitals for which they are responsible.
- We ensure benchmarks are met through the delivery of customized and consistent data management reporting.
- Our on site Medical Directors work clinical shifts and participate on local hospital committees and leadership teams.
- We hold our Medical Directors accountable by aligning their compensation directly to performance standards and deliverables based on hospital benchmarks and Hospital Physician Partners clinical standards.
- We offer regular monthly CME and documentation training to ensure our clinicians are at the peak of their game in your ED.

Hospital Physician Partners' portfolio is founded on the principle of balanced growth consisting of rural, suburban and urban hospital clients. This plan has led to our development as one of the fastest growing Medical Management companies in the U.S. with a base of over 100 client facilities in more than 20 states and growing.
